

Eclipse GL (EE)

Product description

The refined look and superior protection make Eclipse GL our best shingle. This top-of-the-line, heavyweight, double-layer, deep profile laminate offers a more dimensional look of wood shakes. While bold shadow bands create a chiselled appearance, this model's unique perforated construction makes installation simpler and more flexible for challenging roofs. Choice of rustic shake colours to complement with the exterior cladding of any home. For more information please visit www.bpcan.com or call our office.
